

ESD intermediate layers for Euro containers 400x300 mm, 353x253x3 mm

The Safeguard ESD intermediate layers in black for Euro containers with dimensions of 400 x 300 mm are made of a volume-conducting hollow chamber material (polypropylene). This material is characterized above all by its low weight and high abrasion resistance. The dimensions of the intermediate layers are L x W x H = 353 x 253 x 3 mm. Each layer pad has two beveled corners that facilitate removal.
