

Hygostar overshoe dispenser "Hygomat Cleanroom", automatic

The overshoe machine HYGOMAT CLEANROOM has been specially developed for use in clean rooms. Its stainless steel sides are particularly easy to clean and disinfect. All in all, the HYGOMAT technology is extremely clean, since the overshoes are never touched by hand at any time. Cross-contamination and accidents are thus effectively prevented. Another advantage: The HYGOMAT CLEANROOM is fast. Putting on the overshoes is 4 times faster with HYGOMAT than manually. This time saving pays off quickly! very user-friendly, no bending, simple and fast handling with a handle to hold on to - for even more comfortable putting on the overshoes four times faster than normal overshoes putting on with a viewing window, so that the filling level can be seen at any time - refilled with overshoes in a few seconds - clean room certification ISO class 5* according to EN ISO 14644-1

Note: The Hygomat CLEANROOM can only be used with Hygomat overshoes of the brand Hygostar: ® (also available from Franz Mensch)

*= max. 100 particles of max. 0.5 µm diameter per cubic foot (3.5 particles per liter)

Customer comments on the overshoe machine HYGOMAT: Large selection of suitable overshoes: from very simple variants to super slip-resistant overshoes - especially for safe walking on wet or smooth floors.

Customer comments on the overshoe machine HYGOMAT:

The Hygomat is extremely time-saving. We use it for visitors in our entrance area and are very satisfied. It is simple and fast. - Mr Dusch, Grossmann Feinkost GmbH.

We are absolutely satisfied with the Hygomat. We use it for both visitors and employees. Putting on the overshoes has become so much easier. We used to have boxes of overshoes everywhere and the overshoes first had to be taken apart. With the Hygomat everything goes much faster and it is super comfortable. No more bending! Quick and ready, within 2 seconds the overshoes are on your foot. - Elke Frese, GfM mbH - Society for Micronization.

It was important for us to have a overshoe machine that is specially approved for food areas. The Hygomat has the required declaration of conformity and works without any problems. Our employees in food production are completely satisfied. - Christine Dobler, Houdek Arzberg GmbH.

- 4x faster than putting on overshoes manually
- particularly hygienic, as it is made of stainless steel (back and side walls)
- can therefore be cleaned and disinfected very well
- flexible application possibilities, as no electricity is required
- especially for clean rooms and pharmaceutical
- extremely clean, as overshoe is not contaminated by touching with hands
- 100% hygienic, no cross-contamination
- Weight: 20 kg
