

Storage board can be suspended for SMD rolls

The hook-in storage board for SMD reels offers an efficient solution for storing SMD reels with diameters of 320 mm or 180 mm. Equipped with 35 dividers, it enables an orderly and clear arrangement of the reels. The board has a width of 860 mm and fits perfectly in CARs with a width of 970 mm, ensuring optimum use of space. A practical and flexible solution for organizing SMD reels in your working environment. We also offer matching dividers.

- for SINTRO-CAR
- suitable for CAR width 970 mm
- for SMD rolls with $d = 320$ mm or $d = 180$ mm
- can be equipped with 35 divider brackets
