

LAS 200 HD.12 THA8 extraction device for laser smoke, 120 m³/h at 12,000 Pa

- Main filter module:
- Memory filters that are replaced after saturation.
- (1) Pocket filter F9 (ULT 02.0.554)
- (2) Filter mat M5 (ULT 02.0.552)
- (3) Particle filter H13 (ULT 02.0.516)
- Post-filter module:
- Memory filters that are replaced after saturation.
- (4) Adsorption filter, activated carbon approx. 8 kg (ULT 02.1.502)
- Equipment:
- High-pressure turbine, maintenance-free EC drive
- volume flow control
- Particulate filter occupancy indicator
- Interface SUB D9

- Remote On/Off
- Particulate filter occupancy indicator
- operating message

Item no.	WL36714
Model	LAS 200 HD.12 THA8
Manufacturer	ULT
Manufacturer article no.	1-00129 (CL18475)
GPSR manufacturer data	ULT AG Am Göpelteich 1 DE-02708 Löbau www.ult.de
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Rated power (engine)	1.3 kW
Nominal volume flow	120 m ³ /h at 12,000 Pa
Frequency	50/60 Hz
Rated current	11 A
Voltage	230 V
Vacuum (max.)	22000 Pa
Sound level	60 – 70 dBA
Volume flow rate (max.)	220 m ³ /h
