950 PKL/9 SM N Angle wrench set, metric, chrome plated

High-quality offset wrench set for hexagon socket screws in a practical clip made of wear-free material for a permanently secure hold of the offset wrenches and easy removal. Hex key with Hex-Plus profile: Provides larger contact surfaces in the screw head. This reduces the notch effect to a minimum and virtually eliminates damage to the screw head. The ball on the long shank allows safe working even in difficult installation positions. The carefully chrome-plated design guarantees a high level of corrosion protection. Lasered and therefore abrasion-resistant size marking on the offset wrenches for quick access.

- Offset wrench set for hexagon socket screws
- Hex-Plus gives hexagon socket screws a longer service life
- high corrosion protection due to chrome plating on the frame
- Angle keys are quickly at hand thanks to their size marking
- wear-free clip material for increased durability

Item no.	**WL36894**
Model	950/9 Hex-Plus 1
Manufacturer	WERA
Manufacturer article no.	05022087001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	229 mm
Width	83 mm
Height	25 mm
Length with packaging	260 mm

Width with packaging	200 mm
Height with packaging	90 mm
