

## ESD LED magnifier lamp SNLQ 54/2 A, 3 dpt.

---

The ESD LED magnifier luminaire SNLQ from Waldmann literally brings "light and shadow": It offers the possibility of applying an incidence of light with clear shadowing for the recognition of certain details. But the SNLQ also provides all-round shadow-free light - for assembly and inspection tasks, for example. This is because this special magnifier luminaire changes its lighting characteristics quite simply at the push of a button. The lamp is available as an ESD version.

- Control gear: Electronically safe Transformer
- Connected loads: 100/120/200-240 V, 50/60 Hz
