Gold Plated Connector

Stainless Steel Shaft

Lead-Free Tip

The T80DT006 D-inner 1.50 mm desoldering tip from the T desoldering tip series from THERMALTRONICS is specially designed for precise desoldering of medium-sized solder joints. Thanks to the straight, conical tip, solder can be picked up in a targeted manner, which enables clean and controlled desoldering even in tight component arrangements.

The tip is RoHS-compliant and lead-free, making it environmentally friendly and safe for professional use. With a tip length of 13 mm and a tip width of 1.50 mm, it offers an optimum contact surface to capture solder efficiently without damaging adjacent components.

The desoldering tip is compatible with the DS-GUN-2 handpiece and suitable for the TMT-5000S-1 and TMT-5000S-2 soldering stations. The T-series guarantees reliable and consistently precise desoldering results thanks to its specially developed design.

The 1.50 mm T80DT006 D-inside desoldering tip from THERMALTRONICS is the ideal solution for electronics engineers who want to desolder medium-sized solder joints efficiently, cleanly and in a controlled manner.
