WT HUB control unit for one Zero Smog TL unit, on one or two WT or WX stations

The WT HUB control unit from Weller is the central control unit for the Zero Smog TL unit and enables seamless integration with one or two WT or WX stations. It provides efficient control and monitoring of the extraction processes to ensure a clean and safe working environment. The intuitive user interface makes it easy to operate and adjust settings, while the robust design ensures durability. The WT HUB control unit is the optimal solution for the effective management of extraction systems in demanding working environments.
• WX connecting cable T0058764710 required
• allows cost-efficient and synchronized use of the extraction unit only when the user is soldering
• quick and easy setup
• WX and WT compatible
• T0058764710 - WX connecting cable
