

## Offset screwdriver, hexagonal, 2.5 mm, burnished, 21x59 mm

The BAHCO offset screwdriver 1995M-2.5 has been specially developed for working with metric hexagon socket screws and offers maximum precision for small and hard-to-reach screw connections. With an overall length of 59 mm and a blade length of 21 mm, it is ideal for precision mechanical applications, assembly work and repairs.

Made from high-quality, fully hardened steel, this offset screwdriver guarantees durability, stability and optimum power transmission. The burnished surface protects the tool against corrosion and gives it an attractive appearance at the same time. The size of the hexagon socket is clearly stamped into the blade to ensure quick and error-free selection.

Manufactured to ISO 2936 standards, the BAHCO hex key L-wrench impresses with its precision, ergonomics and reliability. It is compact, robust and indispensable for any craftsman or technician who wants to work safely and efficiently in confined spaces.
