

ESD work table Basic, adjustable, ESD hard laminate, castors, blue, 1200x800 mm

The reinforced design of the ESD work table Basic by Karl fulfils all standards which are prescribed for an ESD-compliant workplace in an EPA in order to ensure safe working with sensitive electronic components. Thanks to the reinforcing struts on the table frame, the table top can be loaded with up to 200 kg of uniform surface load.

- Swivel castors (Ø 100 mm), 2 swivel castors lockable
- base frame made of sturdy square steel tube, 35 x 35 mm
- Table legs can be dismantled, fastened to the underframe using special connectors with a screw
- all metal parts conductive powder coated
- hard and abrasion-resistant, conductive plastic coating, surface slightly textured and glare-free, scratch-resistant
- Leakage resistance RA1 x 10⁵ to 5 x 10⁹ Ohm (dry measurement according to IEC 61340-5-1, 100V)
- high heat resistance (20 minutes at 180°C)
- resistant to organic solvents, weak acids and alkalis, petrol and oil
- Worktop continuously conductive

item number	WL38804
model	30.205.48
model line	Basic
manufacturer	KARL
manufacturer item number	30.205.48
width	1200 mm
height	780 mm
depth	800 mm
order unit	1 piece
content unit	1 piece
colour manufacturer	water blue
Colour	blue
material frame	square steel tube
typical bleeder resistance	$10^5 - 10^9$ Ohm
connection	2x 10 mm press stud
version plate	ESD version
material tabletop	ESD hard laminate
with earthing point	no
load capacity	200 kg
ESD safe	yes
