

Nitrogen soldering iron 20 W, T210-NA

The 20 W, T210-NA nitrogen soldering iron from JBC is a precise tool for demanding soldering work. With an output of 20 watts, it offers optimum temperature control, which is essential for sensitive electronic components. The ergonomic handle ensures comfortable working even over long periods of time. In combination with the GN-A N² nitrogen generator, the soldering quality is significantly improved by reducing oxidation. The nitrogen flow protects the solder joint and ensures clean, long-lasting connections. Ideal for professional applications where precision and reliability are paramount. Discover the advantages of this high-quality soldering iron at Weidinger.eu for N² Nitrogen generators GN-A

Item no.	WL39038
Model	T210-NA
Manufacturer	JBC
Manufacturer article no.	T210-NA
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Length with packaging	235 mm
Width with packaging	40 mm
Height with packaging	40 mm
Scope of delivery	Soldering iron and nozzle B6647
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Handpiece (type)	nitrogen iron
Matching stand	DN-SE
Matching tips	c210

Matching accessories	KN-A Nitrogen Kit for DI, KNE-A Nitrogen Kit for DDE & DME, T210-NA nozzles
Cable length	1.5 m
Matching control unit	DI - 1-Tool Control Unit, DE - 2-Tool Control Unit, DME - 4-Tool Control Unit
ESD compliant	yes
