Double arm stand for OMNI 3, 440 x 400 x 260 mm

The AI 100-038 double-arm stand is designed for the OMNI 3 inspection device and offers an extended reach thanks to its two-arm extension arm, ideal for viewing larger work areas or components. The stand supports flexible positioning of the inspection device and enables precise work for a wide range of inspection and assembly tasks.

A focus block is integrated, which ensures stable adjustment of the optical components and facilitates repeatable, precise observations. The stand is optionally available with a stable base or a table clamp, providing optimum support for both stationary and flexible workstations.

With dimensions of 440 x 400 x 260 mm and a weight of 18 kg (base) or 11 kg (table clamp), the double-arm stand is characterized by high stability and sturdiness. It is particularly suitable for professional use in electronics production, laboratories, rework and quality control areas, where safe and precise positioning of the inspection device is crucial.

- Two-arm jib stand with extended reach for viewing large areas
- Focus block included
- Available with base or table clamp
- Weight: 18 KG (base); 11 KG (table clamp)

Item no.	WL39941
Model	AI 100-038
Manufacturer	WEIDINGER
GPSR manufacturer data	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden www.weidinger.eu
Length	440 mm
Width	400 mm
Height	260 mm
Sales unit	1 piece
Content unit	1 piece
Tripod design	Double arm stand
