

ESD LED system light PS WorkLED SE 1040, lateral

When more light is needed on the work surface for the finest activities, the standard dimmable ESD PS WORKLED SE - Lateral system light for side mounting comes into play. The integrated mounting bracket allows the PS WorkLED SE Lateral to be installed at any height and beam angle and enables either completely shadow-free illumination or an intended shadow effect.

- Dimmable as standard
- Saving the desired brightness level
- Extremely slim and space-saving design
- Simple installation on common workstation profiles
- Integrated control gear
- ESD-compliant
- Illuminance: 531 lx @ 1m
