

ESD earthing plug, 3x 4 mm banana plug socket, yellow

The Safeguard ESD grounding plug is designed to protect electronic equipment and components from damage caused by electrostatic discharge. The plug has 3 x 4mm banana jacks and offers a 1 megohm safety resistor per connection. With the help of the plug sockets you can work ESD-safe and avoid damage to sensitive components. The 1 megohm safety resistor ensures that static electricity is dissipated effectively and safely. The yellow design of the connector helps to quickly identify and access it.
