

## Conical soldering tip, D: 0.3 mm, C115103

---

The JBC C115103 conical soldering tip with a diameter of 0.3mm has been specially developed for high-precision soldering work and is ideal for applications under the microscope as well as for the finest SMD repairs. This soldering tip belongs to the high-quality JBC C115 series, which is known for its reliability and exceptional heat transfer. Thanks to its conical shape, it enables precise spot soldering even in hard-to-reach places on densely populated PCBs.

The C115103 is fully compatible with the JBC Nano handpieces NT115-A, NP115-A and AN115-A, which are mainly used in micro-assembly and rework work on sensitive electronic components. Thanks to the fast heat-up time and precise temperature control, the soldering tip supports effective work at a professional level.

Manufactured with the proven JBC Long Life Tip technology, the C115103 offers a significantly longer service life than standard soldering tips. The integrated support for sleep and hibernation modes reduces oxidation of the tip and also extends the service life. The soldering tip is characterized by its robust copper construction and high-quality coating, which ensures consistent soldering quality with minimal maintenance.

<b>Item no.</b>	<b>WL43553</b>
Model	C115-103
Manufacturer	JBC
Manufacturer article no.	C115103
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Sales unit	1 piece
Content unit	1 piece
Product series	C115
Tip series	C115
Tip length	5 mm
Soldering tip diameter	0.3 mm
Tip shape	conical
Tip alignment	straight
Matching handpiece	AN115, NP115, NT115
Matching handpiece	NT115-A, NP115-A, AN115-A
ESD compliant	no
