

Adjustable arm for hot air stations JT/ TE

- without base plate
- for mounting on the workbench
- supports hot-air heating and enables hands-free operation
- suitable for JT and TE heating hose sets
- different joints allow height and working position adjustment
- Tool holder enables tilt and rotation adjustment
- vertical axis as well as articulation are scaled
- Hose clamp keeps the heating hose away from the working area
- PCB holder and heating hose set are not included in the scope of delivery
