

Performus-X100 Dispenser, 0-7 bar (0-100 psi)

The Nordson EFD Performus X100 dispenser features a compressed air regulator (0-7 bar) that allows a variety of different materials to be processed. The proportioner features vacuum control, I/O connectivity and an intuitive and convenient teach function that simplifies setting the initial dispense size. The Nordson EFD Performus X100 dispenser offers other benefits as well, including increasing material throughput and reducing production costs through efficient and controlled dispensing of adhesives, lubricants and other assembly fluids. Protected by a metal housing, the dispenser is ideal for use in industrial environments.

- Metering unit Performus X100, digital
- for low and high viscosity media
- pressure regulator 0-7 bar
- 230V
- Teach function - simplifies the setting of the initial dosing quantity
- Time controlled or continuous operation
- Vacuum control to prevent dripping between cycles for low viscosity fluids
- Digital time-/pressure display
- Metal housing that also acts as a Faraday cage to improve EMI / RFI protection
- Universal power supply for worldwide use
- Repeatable points, fills and beads

item number	WL43701
model	PERFORMUS-X100
manufacturer	NORDSON EFD
manufacturer item number	7363256
order unit	1 piece
content unit	1 piece
dosing time display	digital
compressed air display	digital
