

## W 101SP, soldering iron for mains voltage MAGNASTAT, 100 W, with welding mirror

**Weller**

The Weller Magnastat system operates through a ferro-magnetic sensing device which changes its characteristics when specific temperatures are reached. This causes it to either attract or repel a permanent magnet which operates a power supply switch. In this way power to the heating element can be quickly switched on or off to either provide extra power for soldering operations or reduce power when idling. Various pre-selected tip temperatures are available to permit different types of soldering to be undertaken. Working temperature selection is achieved by simply changing the "temperature sensing" soldering tip. These are available in temperature ratings of 260°C, 310°C, 370°C, 425°C and 480°C.

Item no. **WL44161**

Model **W 101SP**

Products for the electronic industry

Manufacturer	WELLER
Manufacturer article no.	T0056109699N
GPSR manufacturer data	WELLER Tools GmbH Carl-Benz-Strasse 2 DE-74354 Besigheim www.weller-tools.com
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Power	100 W
Handpiece (type)	soldering iron
Matching tips	CT2
Matching control unit	Netzbetrieb
ESD compliant	no
