

Guide kit for SFR-A, Ø 1,5 mm, 0,3 m, with solder wire perforation

The GSFR guide kit is intended for use with the SFR solder feeder in automatic soldering processes. The guide kit can be easily replaced if other solder wire diameters are used. Guide kits are also available without solder wire perforation and for other wire diameters. If the SFR is not attached to the robot soldering head, different guide lengths are available, see manual for detailed information.

- With solder wire perforation
- compatible with solder wire diameters Ø 1,5 mm
- This guide set is suitable for the SFR solder wire feed and is easily exchangeable if different solder wire diameters are used.
