Soldering tip conical, D: 0.8 mm, C115107

The JBC C115107 is a conical soldering tip (Conical Cartridge Ø0.8mm) from the renowned C115 series, which was specially developed for precise and controlled nano soldering. Thanks to its compact diameter, it is ideal for working on very small components, even under a microscope - precise, efficient and reliable.
This C115 soldering tip is compatible with the high-tech NT115, NP115 nano handpieces and the AN115 Tweezers system. It offers instant heat-up, excellent heat transfer and exceptional durability thanks to the innovative JBC Long Life Tips system, which, in combination with sleep and hibernation modes, achieves up to five times longer service life.
Owners of a nano soldering station such as the NT115, NP115 or AN115 benefit from the standard-compliant quality of the C115 series, which meets the highest requirements - both in terms of compactness and in terms of heat output and precision.
At just 0.001 kg and extremely maneuverable, the C115107 soldering tip enables the finest soldering work even in confined spaces - ideal for electronics professionals who value precise, reliable and durable soldering.

Item no.	WL44719
Model	C115-107
Manufacturer	JBC
Manufacturer article no.	C115107
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Sales unit	1 piece
Content unit	1 piece
Product series	C115
Tip series	C115
Tip length	5 mm
Soldering tip diameter	0.8 mm
Tip shape	conical
Tip alignment	straight
Matching handpiece	AN115, NP115, NT115
ESD compliant	no
