

ESD screwdriver Precision Torx T8

The Precision Torx T8 ESD screwdriver from WIHA is ideal for precision mechanical work on electronic components and devices where electrostatic discharge must be avoided. Equipped with a Torx T8 profile, a blade length of 40 mm and a slim 80 mm handle, it enables precise, comfortable and controlled work even in confined areas.

The ESD-compliant design in accordance with IEC 61340-5-1 reliably protects sensitive electronic components from electrostatic discharge. The ergonomic handle shape with twist cap ensures sensitive handling and an optimum balance between precision and control.

With an overall length of 120 mm and a blade diameter of 2.5 mm, this screwdriver is the perfect choice for service work, repairs or precision mechanical assembly work on electronic devices.

Item no.	WL44926
Model	278R
Manufacturer	WIHA
Manufacturer article no.	27759
GPSR manufacturer data	Wiha Werkzeuge GmbH Obertalstraße 3-7 DE-78136 Schonach www.wiha.com
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Standards	IEC 61340-5-1.
Screw type	TX08
