

Automatic soldering unit, for general soldering applications

Please note: R245 tips and GSFR tube set are not included

- for general soldering applications
- selective solution with automatic soldering tip change
- The TRA245 automatic soldering iron in combination with the CS2R245 soldering tip stand allows automatic soldering tip change as soon as the tip is worn out
- Solder wire feeder SFR is mounted on the TRA soldering head
- 50 mm diameter CLMR tip cleaner cleans the soldering tip in one second, thus increasing the heat transfer capacity
- suitable for series: R245
- R245 tips and GSFR tube set are not included in the scope of delivery
