

Solder fume extraction unit MG 100S Kit 2, 2 funnels

The MG 100S kit 2 will be delivered with 2 pcs. flexible extrcation arm 1,5 meter, and 2 pcs. funnel nozzle. To make installation easier, the MG 100S can be suspended at the work table with special table mounting set (780-3001-ESD). The fume extraction unit is suitable for applications with a high demand of gases. Variable speed and alarm function for filter exchange can be set via the remote control.

- Extraction unit for use at up to 2 workstations
- Electronic filter control with alarm function
- Variable volume flow setting
- Switchable power supply 100-240 V, for worldwide use in all voltage networks
- Extra small footprint
- Optimized filter service life
- The suction unit MG 100S Kit 2 is delivered with 2 flexible suction arms 1,5 meter and 2 funnel nozzles. To facilitate installation, the MG 100S can be mounted directly on the worktable using a suspension (780-3001-ESD). It is particularly suitable for applications with a high volume of harmful gases. The remote control can be used to set different

speeds and the alarm function of the filter, even remotely from the device.

- Compact filter: particle filter H13, broadband gas filter (50 % activated carbon / 50 % chemisorb)
- Interface RS232 (Remote Control): 1 x RS232 (TTL)

item number	WL45153
model	MG 100S Kit 2
manufacturer	WELLER
manufacturer item number	100-1055-ESDN
length	460 mm
width	210 mm
height	610 mm
order unit	1 set
content unit	1 set
frequency	50/60 Hz
power	100 W
voltage	230 V
vacuum max	2300 Pa
noise level	52 dBA
volume flow max	140 m ³ /h
