

HOTWIND PREMIUM hot air blower, 120V/2300W, cURus

As a handy hot air blower, the HOTWIND PREMIUM is particularly suitable for continuous use: thanks to its extremely quiet, brushless blower motor and integrated protection against heating element and device overheating, it can be used for continuous plastic processing in systems without any problems. The air volume and heat output are infinitely variable and, thanks to the high maximum temperature of 650 °C, the hot air tool can be used for a wide range of applications.

The HOTWIND PREMIUM is particularly suitable for shrinking film or for drying and baking paint. Accessories such as nozzles, reflectors and filters make this hot air tool particularly suitable for installation in a wide range of applications. The HOTWIND PREMIUM can also be equipped with a hand tool kit for flexible working. This kit includes a carrying handle and protective tube. This allows the HOTWIND PREMIUM to be easily converted into a safe and portable hand-held hot air tool.

item number	WL45374
model	8H.P31
manufacturer	LEISTER
manufacturer item number	142.608
