

## Nano desoldering tweezers, tips individually adjustable, NP115-A

- offers highest precision in soldering or reworking SMD components
- works with two individually managed soldering tips
- versatile movement: the flexibility of the arms allows greater versatility in handling components regardless of geometry
- The short distance from hand to tip provides better manual control of the tool, even when using a microscope.
- Finger sleeves N1738
- works with NASE-C and NANE Nano stations, C115 tips
- not compatible with C105 top series
- Tips not included in scope of delivery

item number	WL45431
model	NP115-A
manufacturer	JBC
manufacturer item number	NP115-A
length with packaging	235 mm

width with packaging	40 mm
height with packaging	40 mm
order unit	1 piece
content unit	1 piece
handle type	soldering tweezers
length cable	1.2 m
