

ESD desoldering braid, 2 mm x 3 m

For fast and safe desoldering: The high-purity, oxygen-free copper braid removes the solder quickly and completely from PCBs and components. The fast wicking action protects the components from harmful heat damage. Thanks to the PermaPak Barrier Packaging, the braid is always protected from oxidation.

- No ionic contamination left on the PCBs
- Reduces the risk of heat damage to PCBs to a minimum
- lead-free
- antistatic
- Packaged in ESD-safe coils

item number	WL45723
model	SW40-3-10
manufacturer	CHEMTRONICS

manufacturer item number	SW40-3-10
length	3000 mm
width	2 mm
order unit	1 rolls
content unit	1 rolls
colour	green
Colour	green
ESD safe	yes
