ESD slippers x-light, black, size 46

The ESD slip-on shoe x-light from ABEBA is designed for professional use in industry and electrostatically sensitive work areas. It meets the requirements of DIN EN 61340 and EN ISO 20345:2012 and offers reliable protection in everyday working life with safety class S2 and SRC certification.

The smooth black leather upper is hard-wearing and easy to clean. An integrated steel toe cap protects the toe area from mechanical impact. Inside, a breathable lining with silver ions ensures a balanced foot climate and helps to reduce odors.

The slip-resistant PU outsole ensures a secure grip on various surfaces, while the replaceable Active Comfort insole increases wearer comfort and can be easily replaced if necessary. The slip-on shoe is also suitable for orthopaedic insoles, which offers additional flexibility in use. The slip-on shoe corresponds to risk category 2 according to the PPE regulation.

An elasticated drawstring in the instep area makes it quick to put on and take off and ensures a secure fit without lacing. The Sanitized treatment supports hygienic conditions in the shoe and makes the model a practical solution for everyday use.
- CE, EN ISO 20345:2012, S2, SRC
- ESD-compliant according to DIN EN 61340
- Sanitized treated

Item no.	WL45850
Model	7131137-46
