

ESD high-resistance meter set, LED display, MegaGuard easy

Safeguard's MegaGuard Easy is a digital high impedance meter used to measure point-to-point resistances and to check surface resistances and leakage resistances of persons, shoes, mats and floor systems in an ESD area. The measuring device covers a measuring range from 10^4 to 10^{12} Ohm and has an LED measured value display with an accuracy of +/- 1 decade. The battery-powered MegaGuard Easy weighs only 200 grams and complies with the EC directives EMV - 2014/30/EU as well as the technical requirements of DIN EN 61000-6-1 and DIN EN 61000-6-3. Included in delivery are an ESD case, a connection cable, a jack plug, a banana plug and a crocodile clip.

- allows to measure the surface resistance and the leakage resistance of mats, floors and other objects in the ESD range
- Battery 9 V

Item no.

WL45915

Products for the electronic industry

Model	MegaGuard easy
Manufacturer	SAFEGUARD
Manufacturer article no.	SG9265055
GPSR manufacturer data	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden
Scope of delivery	1 MegaGuard Easy with 9V battery 1 connection cable SG9265013B, 3.5 mm jack plug - banana plug 4 mm Crocodile clip Operating instructions ISO9000 traceable calibration certificate Conductive case
Sales unit	1 piece
Content unit	1 piece
Standards	IEC 61340-5-1
Digital display	no
Measuring range	from 10^4 to 10^{12}
Resolution	1 decade
Measurement accuracy	± 1 decade
Internal memory	no
ESD compliant	yes
