

ESD wrist strap, black plastic

Our ESD wrist strap model 30-560-0111 is designed for reliable protection against electrostatic discharge when working on sensitive electronics. Made from black thermoplastic, it offers a robust yet flexible solution for long-term use.

The wristband is equipped with a 3 mm push button, which ensures secure and easy attachment to the wrist. Thanks to the washable material, the wristband can be easily cleaned and used several times without affecting its dissipative properties.

The ESD wristband is ideal for use in production, laboratories, assembly or repair, where electrostatically sensitive components need to be reliably protected from uncontrolled discharges.

Item no.	WL46108
Model	30-560-0111
Manufacturer	WEIDINGER
GPSR manufacturer data	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden

Products for the electronic industry
