

WXUP MS, ultra soldering iron, 150 W, Active-Tip technology

Production within the electronics, medical technology and aerospace industries is moving faster as components become smaller, more sensitive, complex and more powerful. The soldering industry is not different. With the Weller RT MS tips you meet these increasing demands and provide maximum protection to the printed circuit board and the component you're soldering. With the MS tips you achieve the best results and keep your operation costs as low as possible. The Weller MS (military standard) soldering tips with active tip technology are fully compliant with IPC industry standards (IPC - TM-650 2.5.33 Measurement of Electrical Overstress from Soldering Hand Tools) and are also MIL-SPEC compliant. Extend your Weller WX workbench with a micro soldering tool.

- Intelligent Ultra soldering iron 150 W, 24 V
- Military standard (MIL-SPEC)
- For large components with high energy requirements
- Soldering iron for WX soldering stations
- Parameter memory in the piston e.g. standby temperatures, automatic switch-off time
- Reduction of consumption costs (radiators and soldering tips) due to usage sensor
- Fast, tool-free soldering tip change of RTU soldering tips
- The active soldering tip (cartridge) system allows the entire soldering tip to be changed when the soldering iron is hot
- without soldering tips

- Heating time (approx) in seconds (50-350°C / 120-660°F): 7 sec
- Active Tip Radiator Technology

Specification	MIL-SPEC
Technology	Active-Tip
item number	WL46740
model	WXUP MS
manufacturer	WELLER
manufacturer item number	T0052923099
order unit	1 piece
content unit	1 piece
power	150 W
voltage	24 V
handle type	soldering iron
suitable stand	WSR 200
suitable tips	RTU MS
Tip series	RTU-MS
suitable control unit	WX 1, WX 2, WXD 2, WXA 2, WXR 3
