

ESD grid adhesive tape with ESD warning symbol, dark gray, 24 mm, 36 m

The ESD grid adhesive tape from Safeguard is the perfect solution for anyone working in areas where electrostatic discharge is a concern. With a length of 36 meters and a dark gray color, it provides optimal coverage for your needs. It has high abrasion resistance and a low dead weight, making it ideal for use in ESD zones (EPA). This ESD grid tape from Safeguard provides reliable electrostatic discharge protection for your electronic equipment and sensitive components. It is easy to apply and remove and leaves no residue. The tape includes an ESD warning symbol and is available in different widths - you can find the perfect width for your application in our store.

- ESD-Grid adhesive tape, dark grey
- with ESD warning symbol
- Surface resistance $10^5 \sim 10^9$ Ohm
- W = 24 mm, L = 36 m, for dispenser D = 76 mm

item number	WL47289
model	SG-GKB-DG
manufacturer	SAFEGUARD
manufacturer item number	SG-GKB-DG-24X36M
GPSR manufacturer information	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden
length	36000 mm
width	24 mm
order unit	1 rolls
content unit	1 rolls
colour manufacturer	dark grey
Colour	grey, black
diameter	76 mm
typical bleeder resistance	$10^5 - 10^9 \text{ Ohm}$
ESD safe	yes

Other versions

item number	width
WL47287	12 mm
WL47288	18 mm
WL47289	24 mm
WL47290	48 mm
