

## ESD Inspection Device SuperScope Autofocus, black

### Description

At the heart of O.C. White's Super-Scope® ring light is the 5MP Hybrid HDMI/USB camera with integrated 12.1" LED screen. With full 1080 resolution (300dpi) for super detailed heads-up viewing. This camera has onboard tools like image and video capture, calibrated measurement, split screen, live view and more! An 8 GB SD card is included as standard to facilitate the transfer. This system features our exclusive varifocal lens technology, which allows magnification up to 80x.

- Standard magnification range 1-40X (up to 80X with options)
- Variable focusing allows unlimited working distance
- 5MP Hybrid HDMI/USB camera with integrated 12.1" LCD monitor including Advanced Imaging & Measurement Software Suite
- AIMS includes on-screen wireless mouse controls for image/video capture, live vs. still image comparison, calibrated measurement, labeling, digital noise reduction
- 24" double ball bearing base; No light

### Product details
