

V250 Solder fume extraction unit, 2 extraction arms, 230 V, 50 Hz

- Two 1.4 m long, unit-mounted Stay Put extraction arms
- Advanced carbon gas filter
- 99.997% HEPA filtration
- Filter clogging indicator
- for vapours that may be generated during hand soldering
- portable system
- for 2 users
- simple and quick installation
- low noise level
- comprehensive filtration capabilities

item number

WL47361

Products for the electronic industry

model	V250 - unit mounted dual arms
manufacturer	BOFA
manufacturer item number	1U10851596-1209
width	290 mm
height	420 mm
depth	270 mm
order unit	1 piece
content unit	1 piece
material	Powder-coated mild steel
frequency	50/60 Hz
power	135 W
nominal current	0.9 A
voltage	230 V
Air Flow	180m ³ /hr / 30mbar
Noise level	61 dBA
device series	V 250
