

ESD sweatshirt jacket with zip, 260g/m², unisex, black, L

The Safeguard ESD Sweatshirt Jacket is a unisex workwear in the color black. It is made of a special material composition of 48% cotton, 48% polyester and 4% carbon fiber. This composition provides high breathability and comfort. The jacket has a basis weight of 260 g/m² and is equipped with a zipper. The ESD sweatshirt jacket from Safeguard is available in various sizes and is ideal for use in environments where sensitive electronic components must be protected from electrostatic discharge.
