

DRV300 Short baseplate for DRV

Vision Engineering's DRV-Z1 digital microscope is not only the first widescreen 3D FHD digital microscope - this new technology also allows the exact same 3D images to be viewed, captured and shared across networks in real time. This creates entirely new opportunities for collaboration across distributed operations. Designed specifically for inspection and manufacturing applications, Vision Engineering's DRV-Z1 is a stereo zoom digital 3D viewing system that combines the benefits of optical stereo microscopy and digital technology in a single system.

Item no.	WL47547
Model	DRV300
Manufacturer	VISION
Manufacturer article no.	DRV300
GPSR manufacturer data	VISION Engineering Ltd.,

Products for the electronic industry

Anton-Pendele-Straße 3
