

Spare arm right for RHS-A

The RHS-A replacement arm from JBC, available from Weidinger.eu, offers a flexible solution for precise soldering work. Thanks to its height adjustability, it enables optimal adaptation to different working positions, which increases efficiency and ergonomics at the workplace. The support point is strategically placed close to the work zone to help stabilize the pulse rate. The arm can also be coupled with the JT/TE support arm for additional stability and freedom of movement. Ideal for professional users who value adaptability and precision.

- allows you to adapt to different positions according to your work requirements
- Support point very close to the working zone, stabilization of the pulse frequency
- adjustable in height and allows complete freedom of movement
- can be coupled with the support arm JT/TE
