

ESD screwdriver set Kraftform Kompakt Stubby ESD 1, 10 pieces

Handle / interchangeable blade system for lightning-fast replacement of the required blade. Particularly small ESD bit holder with short blade for electrostatically safe working even in hard-to-reach areas. Suitable for holding bits with 1/4" external hex drive to DIN ISO 1173-C 6.3 and Wera connection series 1. With strong permanent magnet that also holds large and heavy screws. The 2-component Kraftform handle with its practical combination of hard and soft zones enables a firm grip and precise work. High-quality bits for universal use. Compact, textile box with high robustness, low weight and volume. Suitable for docking onto the Wera 2go system.

- Handle/interchangeable blade system for lightning-fast replacement of the required blade
- Stubby ESD bit holder: Short, compact shape for working in tight spaces
- ESD bits holder for electrostatically safe working, magnetic
- Ergonomic 2-component Kraftform handle for precise work

- 851/1 J: Bits optimized for Asian PH screws
