

UltimusPlus II dosing device with NX, 0.02-1.0 bar (0.3-15 psi)

Nordson EFD UltimusPlus™ fluid dispensers provide next level process control for advanced applications of glues, oils, greases, epoxy, silicones, sealants, cyanoacrylates, solder pastes, and other assembly fluids dispensed with syringe barrels manually or on automated systems.

- 0.02-1.0 bar (0.3-15 psi) pressure regulator
- greater control when dispensing low-viscosity or thin fluids.

Item no.	WL47873
Model	7364362
Manufacturer	NORDSON EFD
Manufacturer article no.	7364362
GPSR manufacturer data	Nordson Deutschland GmbH Kapellenstraße 12
