

Mouthguard with rubber loop

Description

The disposable face masks are made of 3-layer, glass-fibre-free PP material, which guarantees excellent filtering performance and low breathing resistance. For additional wearing comfort the integrated nose clip, which can be individually adjusted, and the two rubber loops for fastening behind the ears are used. The mouthguard meets the performance requirements of EN14683 Type II and is CE marked.

- 3-ply, glass fibre free
- integrated nose clamp
- CE Cat. I
- EN14683, Type II
- Colour: blue
- One size fits all
- PU: 50 pieces
