ESD Kapton/polyimide tape black, 6 mm, 33 m

The ESD Kapton adhesive tape from Safeguard in black reliably protects electronic devices and components from damage caused by electrostatic discharge. The Kapton adhesive tape with a width of 6 millimetres and a length of 33 meters made of polyimide has excellent resistance to heat and chemicals. It is often used in the electronics industry due to its very good insulation and high temperature resistance.

- Temperature short term up to 300°C
- Roll core Ø 76 mm
- residue-free removable
- Chemical Resistance
- protects contact surfaces in the solder wave
- Material: dissipative 10^5 Ohm
- Colour: black
- Made in CN

Item no.	**WL48196**
Model	SG-KB-SCH-KP
Manufacturer	SAFEGUARD

Manufacturer article no.	SG-KB-SCH-KP-6-33
GPSR manufacturer data	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden
Length	33000 mm
Width	6 mm
Sales unit	1 rolls
Content unit	1 rolls
ESD compliant	yes

Other versions
