

## ESD Kapton/Polyimide tape black, 6 mm, 33 m

The ESD Kapton adhesive tape from Safeguard in the color black reliably protects against damage caused by electrostatic discharge to electronic devices and components. The Kapton adhesive tape with a width of 6 millimeters and a length of 33 meters made of polyimide has an excellent heat and chemical resistance. It is widely used in the electronics industry due to its very good insulation and high temperature resistance.

- Temperature short term up to 300°C
- Roll core Ø 76 mm
- residue-free removable
- Chemical Resistance
- protects contact surfaces in the solder wave
- Material: dissipative  $10^5$  Ohm
- Colour: black
- Made in CN

item number	WL48196
model	SG-KB-SCH-KP
manufacturer	SAFEGUARD
manufacturer item number	SG-KB-SCH-KP-6-33
length	33000 mm
width	6 mm
order unit	1 rolls
content unit	1 rolls

Products for the electronic industry

ESD safe

yes
