

Crimping system pliers, for exchangeable crimping dies, black oxide finish, in a plastic case, 200 mm

Only one tool for almost 1000 crimping applications. Almost parallel crimping movement. Consistently high crimp quality due to precision inserts and positive ratchet (unlockable). Crimp pressure is precisely set (calibrated) at the factory, adjustable. Force amplification through lever transmission for low-fatigue work. Ergonomically shaped handles. Various positioning aids for precise positioning. Crimping dies for applications beyond the offered range on request. Pliers without crimping dies, without case.

- Only one tool for almost 1000 crimping applications
- Nearly parallel crimping motion
- Consistently high crimp quality due to precision inserts and positive ratchet (can be unlocked)
- Crimp pressure is precisely set (calibrated) at the factory, adjustable
- Force amplification through lever transmission for low-fatigue work
