

ESD cutting tweezers (flush) 115mm Form 15 AP, dissipative

Please observe the care instructions! CARE NOTE: High humidity or touching with fingers (sweat) causes carbon steel to rust. Therefore, the tweezers should always be kept dry or rubbed with oil during longer storage. If rust nevertheless forms on the tweezers or blade, it can be removed quite easily with a light sharpening.

- for flush cutting, cutting edge width 10 mm, very stable, extremely hard and sharp, optimal sharpness of cutting edges
- for soft wires up to Ø 0,25mm (copper wire, gold wire, silver wire etc.)
- surface matt polished, smooth and glare-free, ESD coating dissipative between 10^6 and 10^9 Ohm

item number	WL48470
model	5-879-13
manufacturer	BERNSTEIN
manufacturer item number	5-879-13
order unit	1 piece
content unit	1 piece
material	Material carbon steel, not anti-magnetic
VDE	no
ESD safe	yes
tool material	carbon steel
tool length	115 mm
tweezers type	cutting-tweezers
