

## Hygostar butcher's cap white polycotton

Peaked cap Clup cap by Hygostar: The club cap is made of polycotton a mixture of cotton and polyester. It is very stable and comfortable to wear. The club cap is adjustable in size and can also be adjusted in height by a push button on the peak. It is a fashionable and practical headgear for the food industry and for work in butcher shops.

- Polycotton (polyester/cotton)
- dimensionally stable, also suitable for industrial washing
- very convenient
- Height adjustable by snap fastener on the visor
