

Hygostar cap with hair protection blue with mesh top

Shield cap Air Plus from Hygostar: This shield cap is a very hygienic headgear for the food industry and other areas where food is handled. With an elastic band, even long hair is held back at all times.

A further advantage: The shield cap has a net top. This makes the cap extra permeable to air and very comfortable to wear - no sweating, no heat accumulation. Even on warm days or in warm working environments this visor cap offers you a comfortable head climate.

The entire peaked cap is made of durable polycotton. Polycotton is a mixture of cotton and polyester and combines the advantages of both materials. Strong like cotton and elastic like polyester. The visor cap is washable at 60°C household laundry or 90°C industrial laundry.

item number

WL48548

model

Hygostar-0076

Products for the electronic industry

manufacturer	FRANZ MENSCH
manufacturer item number	0076
order unit	1 PU
content unit	10 piece
