

Hygostar Detecta-Cap, PP, white, with elastic band, 50cm

Detectable hood PP fleece from Hygostar: The detector hood is made of a polypropylene fleece. During the production process a metal strip was incorporated, through which the hood can be detected by detector machines. Therefore the hood is particularly suitable for the food industry, but it can also be used in hospitals, laboratories and operating theatres.

- PP fleece, detectable
- latex-free rubber bands
- Metal strip is detected by detector machine
- very permeable to air
- pleasant wearing comfort

item number

WL48609

model

Hygostar-12164

manufacturer

FRANZ MENSCH

Products for the electronic industry

manufacturer item number	12164
order unit	1 PU
content unit	100 piece
colour manufacturer	white
Colour	white
material	polypropylene
features	detectable, air-permeable
diameter	50 cm
features clothing	latex-free rubber bands
Type of cover	Cap
