

Hygostar beret hood, blue, honeycomb mesh, 53cm

Honeycomb nylon is used in the production of the honeycomb canopy. The Honeycomb Hood is light and washable. In addition, it has the highest possible wearing comfort because it is especially breathable. The Honeycomb Hood is especially suitable for the production and food industry. All disposable hoods have latex-free rubber bands!

- Nylon
- honeycomb structure, very air-permeable and light, comfortable to wear
- latex-free rubber band
- washable
