

Hygostar beret cap with peak, perf. viscose fleece, white, 48cm

The beret cap with shade is made of a perforated viscose fleece. This material balances the temperature and makes the hood breathable. In addition, the ability to absorb liquids is very high. Because the beret cap is very well ventilated, it is especially suitable for hot kitchens. Furthermore, the hood is latex-free and therefore suitable for allergy sufferers. The beret cap prevents hair loss and dandruff. The very dressable beret cap made of viscose fleece can be used in the food industry as well as in canteen kitchens. All disposable hoods have latex-free rubber bands!

- Viscose fleece, perforated
- latex-free rubber bands
- breathable (best ventilation), avoids dandruff and hair loss
- no heat accumulation, extremely permeable to air
- absorbs moisture excellently, very absorbent
- temperature compensating
- soft with a silky sheen, pleasant to wear
- Dispenser box
