

Hygostar glove DUALPRENE blue/yellow, latex neoprene, size XL

Chemical protection glove DUALPRENE from Hygostar: The chemical protection glove DUALPRENE is ideal for everyone who works with oils, acids or solvents, for example in industry and cleaning. As a certified protective glove, it reliably protects your hands and forearm from harmful chemicals. The DUALPRENE is a high-quality glove made of latex with a double coating for a particularly high protective effect. The glove is equipped with a double neoprene coating over natural latex - easily recognizable by its blue-yellow colour. Furthermore, this work glove convinces by its good mechanical properties. It is robust, puncture-resistant and of course impervious to liquids.

- strong double coating of neoprene over natural latex - easily recognizable by the blue-yellow colour
- high wearing comfort thanks to cotton flocked inside (less sweating!)
- very good grip thanks to structured palm and fingers
- very elastic and puncture resistant

- with 33cm extra long for extra forearm protection
- very robust, withstands mechanical stress well
- protects effectively when working with oils, acids and solvents

Item no.	WL48812
Model	Hygostar-25013
Model line	Hygostar Dualprene
Manufacturer	FRANZ MENSCH
Manufacturer article no.	25013
GPSR manufacturer data	Franz Mensch GmbH Werner-von-Siemens-Straße 2 DE-86807 Buchloe www.franz-mensch.de
Sales unit	1 pair
Content unit	1 pair
Manufacturer colour information	blue-yellow
Colour	blue, yellow
