

Hygostar nitrile glove CONTROL, blue, size L, powdered

Nitrile gloves Control from Hygostar: The nitrile glove CONTROL is free of latex proteins which can cause allergies. The powder increases the wearing comfort of the glove and makes it easier to put on, especially with wet hands. In addition, the protection is greater than with latex and vinyl, as nitrile is very resistant to abrasion and stitches. In contrast to latex, which becomes porous and permeable when overstretched, nitrile is extremely elastic and tight up to the tear limit. Unlike latex, nitrile is resistant to many chemicals and solvents, such as oils or greases. Due to the additionally structured fingers, the nitrile glove offers a secure grip and an excellent wearing sensation. Furthermore Nitrile has an excellent wet grip. The glove adapts to the hand like a second skin and thus provides a very pleasant wearing sensation. Due to the optimum heat dissipation of the glove there is no heat accumulation and therefore it remains comfortable even when worn for a long time. Its rolled edge catches any drips that run off when the hands are raised. The nitrile glove CONTROL guarantees optimum hand and product protection and is therefore ideally suited for medical, laboratory and food processing applications.

- disposable glove, 24 cm

- Nitrile, strong quality, lightly powdered, non-sterile
- extremely flexible, excellent wearing comfort
- very resistant against abrasion and stitches
- especially comfortable, with rolled edge
- oil and grease resistant
- Dispenser box

Item no.	WL48853
Model	Hygostar-2601
Model line	Hygostar Control
Manufacturer	FRANZ MENSCH
Manufacturer article no.	2601
GPSR manufacturer data	Franz Mensch GmbH Werner-von-Siemens-Straße 2 DE-86807 Buchloe www.franz-mensch.de
Sales unit	1 PU
Content unit	100 piece
Manufacturer colour information	blue
Colour	blue
Incl. battery	no
Type of gloves	long finger gloves
Material of the gloves	nitrile
Length of glove(s)	24 cm
Glove size	L
Coating	without coating
Nubs	no
ESD compliant	no
